Hughes Rally Report - Ian Clapham

The Hughes Historic Rally is open to all fully elected members of The Blackpalfrey Motor Club of Kent and members of the following invited clubs:

The Historic Rally Car Register (HRCR)

Any member club of the Association of South Eastern Motor Clubs (ASEMC)

Any member club of the Association of Central Southern Motor Clubs (ACSMC)

Any member club of the AEMC.

The route was on OS Landranger maps 179 & 189.

The finals did not indicate the route so we had to wait until signing on to receive the road book & test diagrams, the start & finish was based at the Conningbrook Hotel located just north of Ashford in Kent, 150 miles with 5 regularities & 14 special tests awaited the 31 historic & 10 clubman crews with car 1 Stephen Owens & Nick Bloxham leading the way in their beautiful Porsche 911 SWB.

Reg A was straight from the start venue heading north towards Godmersham to Barham via Stelling Minnis, with a mix of spot heights, dots, diamonds, grid lines & grid squares, a bit of everything that caught out lots of crews, 17 crews couldn't find the first code board between the first 2 intermediate time controls, each dropping 1 minute 40 seconds. Just east of Bossingham there was a very tricky 'Long Way Round' junction with a very deceptive slot off that looked like a white but wasn't! A costly mistake if you missed it.

Reg B started in a layby just off the A2 not long after the finish of the previous section, this was a self-start regularity with instructions that appeared to be straightforward but there was some confusion during the plotting whether you should go through some Red Diamonds that were not part of the instruction, however there was a 'Long Way Round' junction in the same grid square that you had to use & the organisers told us not to overthink things, so that cleared things up! We ended up in Eastry then onto a long neutral section that took us north to RAF Manston passing 'Hugin' It is a replica of a Viking long ship which was a gift from the Danish government in 1950 to commemorate the 1500th anniversary of the arrival in England of Hengist and Horsa. They were the leaders of the Anglo-Saxon invasion and they arrived in nearby Ebbsfleet (a hamlet near Ramsgate) in AD 449.

A previous replica long ship was constructed in Denmark and sailed to Kent in 1949 with a crew of 53 Danes who faithfully observed Viking sailing conditions and whose only instrument was a sextant. This ship was returned to Denmark.

Reg C & 14 special tests at the former RAF base where Barnes Wallis was based to test his bouncing bomb on the coast at nearby Reculver prior to the Dambusters raid. A prototype is on public display at the Spitfire & Hurricane Museum that unfortunately we didn't have time to visit but is highly recommended.

The regularity 'Manston Interior' was a steady jaunt around the perimeter grass track following various arrows & through junctions to lunch where a lovely lunch pack made up by the NAAFI CAFÉ based in the museum was handed out. Unfortunately the last 5 tests were scrubbed due to the time, some of the tests for safety reasons has to run 1 car at a time & one test was nearly 3 minutes between cars, such a shame but the potential to use Manston for this event in the future is massive & well done to the organisers for the opportunity to use the venue.

Reg D started straight from Manston that took us south west to Bossingham via Monkton, Preston, Staple & Bridge, a very long regularity with straightforward plotting with the only handout during the rally was to take us past great Pedding farm on a white, however the sting in the tail was a tricky code board to find on a 'Long Way Round' junction on WHITE! That's the bit a lot of the crews missed.

We had a short stop off at Thompsons Garden Centre before Reg E, a very straightforward plot but you had to be certain to mark the correct 6th junction from the start, a few crews missed the code board on this junction & the ITC on the next!

The final regularity of the day started in Chilham & finished close to the finish, this reg had 2 small blackspots that you had to plot exact otherwise you would miss code boards, a few crews did miss the first board. I think everyone was glad to get to the Conningbrook for dinner!

Thanks to the organisers & lots of volunteer marshals, my driver David Blackhurst along with the support from friends, Blackhurst Garage Whitchurch & Lanes Group.
